CARILION CLINIC
Inspiring better health.™

At Carilion Clinic, in the heart of Virginia's Blue Ridge, you'll not only build a career, you'll help lead the way in the transformation of patient care.

Carilion Clinic is the largest community-based, integrated health system serving nearly one million people in Virginia, with seven hospitals, 205+ practice sites and 24 GME programs. This network of 695+ physicians in over 75 specialties offers Carilion physicians faster access to patient information and histories with the sophisticated, fully integrated Epic electronic medical record system and excellent access to subspecialty consultation.

The Virginia Tech Carilion School of Medicine and Research Institute leverages Virginia Tech's world-class strength in basic sciences, bioinformatics and engineering with Carilion Clinic's highly experienced medical staff.

Virginia's western region is one of the best kept secrets, with natural beauty, exceptional amenities and an unparalleled quality of life. The region features award-winning schools, nationally ranked and internationally acclaimed colleges and universities and a rich array of arts, humanities and cultural experiences.

HCA

PracticeWithUs.com

Giving
physicians
what they
need

We prioritize your patient's health and comfort above all else.

We're not just here for you. We're here because of you.

HCA was founded by physicians. Their purpose was to create an environment where healthcare can flourish. They believed the best patient care begins with giving physicians what they need.

Today, over 233,000 healthcare professionals, including over 37,000 active physicians, choose to treat their patients at an HCA facility. Our national network includes over 160 hospitals, 116 freestanding surgery centers, and over 60 urgent care facilities.

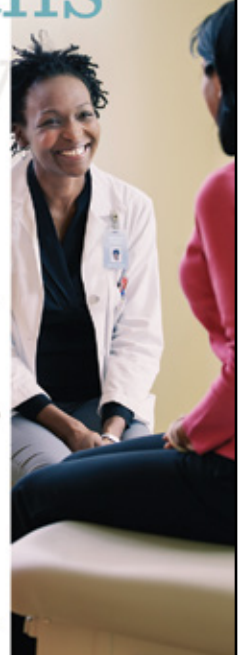

Healthcare with integrity

Our physicians benefit from our dedication to providing:

More voice to our physicians, asking for input on our operations and offering leadership opportunities.

More growth through learning, administrative support, and extended reach to more patients.

More time to give better care with access to smoothly operating facilities and a network of trusted peer expertise and clinical knowledge.
