Giving
physicians
what they
need

We prioritize your patient's health and comfort
above all else.

We're not just here for you. We're here
because of you.

HCA was founded by physicians. Their
purpose was to create an environment
where healthcare can flourish. They
believed the best patient care begins
with giving physicians what they need.

Today, over 233,000 healthcare
professionals, including over 37,000
active physicians, choose to treat their
patients at an HCA facility. Our national
network includes over 160 hospitals,
316 freestanding surgery centers, and
over 60 urgent care facilities.

Healthcare with integrity

Our physicians benefit from our dedication
to providing:

More voice to our physicians, asking
for input on our operations and offering
leadership opportunities.

More growth through learning,
administrative support, and extended reach
to more patients.

More time to give better care with
access to smoothly operating facilities
and a network of trusted peer expertise
and clinical knowledge.
